CGI ANNOUNCES ESTATE ENTRANCES™ ENTRY DOOR COLLECTION

MIAMI, FL., December 3, 2009 – CGI Windows and Doors, Inc. (CGI) a leading manufacturer of premium, impact-resistant windows and doors, today announced the launch of their Estate Entrances collection of luxury entrance doors.

The CGI Estate Entrances line offers the beauty of wood with the security, durability, quality and strength of heavy-gauge aluminum. The offering includes a wide selection of design options including raised colonial muntins, solid aluminum panels, painted wood grain finishes, custom colors and custom hand forged grills. Doors come in a variety of door, sidelight and transom configurations and come standard with CGI's patented 3-point security locking system.

“Initial market response for our Estate Entrances collection has been extremely well received” said Steve Dawson, Executive Vice President of Sales for CGI. “Customers are excited about doors that look like wood, but are low maintenance and have been tested to be intruder and hurricane resistant, he added.”

The product line is supported by time-tested installations of over 10,000 doors in hotels, schools, office buildings, and in the finest and most elegant of homes.

ABOUT CGI WINDOWS & DOORS

CGI has a strong reputation for offering architectural-grade impact windows and doors with unique features and high-quality construction that exceed industry standards. CGI products have been specified and installed in some of the most prestigious residential and commercial projects in South Florida, including the Palm Beach Breakers Hotel historical restoration. Established in 1992, the company was the first impact window and door manufacturer to offer PVB laminated glass designed exclusively to meet the Miami-Dade County impact-resistant protocols.

For additional information, please visit a CGI dealer or contact the sales department at CGI at 305-593-6590. We can also be found on the web at www.cgiwindows.com.
