CGI ADDS THERMA-TRU FIBERGLASS ENTRY DOORS TO THEIR LINE-UP

MIAMI, FL., March 19, 2010 – CGI Windows and Doors, Inc. (CGI) a leading full line manufacturer of premium, impact-resistant windows and doors, today announced the addition of Therma-Tru® entry doors to their offering.

The CGI/Therma-Tru fiberglass entry door line offers a selection of attractive and gracious entry doors offered with Thru-N-Tru® technology and a lifetime limited warranty. The offering includes a wide selection of design options including beautiful decorated glass patterns, matching sidelites, pre-finished stain or paint finish options, hurricane impact-rated and non-impact doors manufactured using durable fiberglass construction. Doors come in a variety of designs and may be ordered with a multi-point security locking system.

“We are excited to be able to provide our customers with these high quality products through our CGI dealer base” said Steven E. Dawson, Executive Vice President of Sales for CGI. “And when packaged with our Estate Entrances entry door systems, the Therma-Tru products offer an excellent complement to our window and door lineup”, he added.

“Therma-Tru is thrilled to have CGI as a channel partner in delivering our products to its network of dealers”, said Bo McVay, District Manager - Florida and Gulf Coast. “With the combination of Therma-Tru’s extensive fiberglass product line and CGI’s sales team, we believe we have a great combination”, he added.

Therma-Tru doors are constructed of durable fiberglass, ENERGY STAR® qualified; provide five times the insulation of a wood door; will not rot, split or crack like wood; and will not rust, dent or ding like steel. The doors create the tightest seal possible, creating an energy-efficient envelope that stabilizes interior temperature and helps you decrease your home's energy costs.

As an added value, homeowners who purchase and install qualified styles of Therma-Tru doors are eligible for a tax credit of up to \$1,500 per household through the American Recovery and Reinvestment Act of 2009 (also known as the economic stimulus package).

ABOUT CGI WINDOWS & DOORS

CGI has a strong reputation for offering architectural-grade impact windows and doors with unique features and high-quality construction that exceed industry standards. CGI products have been specified and installed in some of the most prestigious residential and commercial projects, including the Palm Beach
