BRINGING YOU THE LATEST IN IMPACT RESISTANT WINDOWS & DOORS

CGI Leads the Industry with Extensive Product Warranty

We are proud to announce our new residential, limited 10-year warranty, featuring a unique break-in protection guarantee on our impact resistant windows and doors. CGI's new warranty offers enhanced coverage for structural integrity, hardware and glass breakage effective for products purchased after

January 1, 2007. The expanded warranty coverage and break-in protection sets CGI apart from its competitors by reinforcing CGI's reputation and commitment to superior products and service.

"Because we are confident that our products are better engineered and more reliable than other residential impact resistant windows and doors, and do not deteriorate like wood products, we are able to offer our customers the most comprehensive warranty on the market today," stated Flavio Quesada, CGI President. "We believe that the combination of our outstanding design, industry-leading strength, and enhanced warranty proves to the market that 'we're stronger'," he added.

The coverage includes a 10-year warranty for structural integrity, hardware operation and insulated glass. Additionally, CGI now offers guarantees for stress cracks in glass and provides coverage for laminated glass, screens and paint finish. CGI's unique residential break-in protection provides financial reimbursement if the CGI glass is broken by a burglar. The complete warranty is available at www.cgiwindows.com.

cgiwindows.com

"We are excited to announce that our new web site is fully launched, offering more content and online sales tools than ever before. The new web site is part of our overall strategic direction to better communicate CGI's strengths and set CGI apart from the competition," said Flavio Quesada, president of CGI.

CGI Single-Hung Window

Our single-hung aluminum windows are the newest addition to the CGI product portfolio. This window is constructed of heavy commercial-grade aluminum frames, offering exceptional strength and the stylish design of traditional single-hung windows.

Other features include

- Self-closing locks
- Patented slide mechanism providing ultra smooth operation
- Superior design loads, up to -210 PSF
- Large sizes, code approved up to 54 x 96 and 42 x 120
- Patented Vanceva® storm glass by Solutia
- Clean and elegant design

Baldwin Hardware

CGI now features Baldwin hardware on its line of impact-resistant swinging doors. Because of Baldwin's unique styles and reliability, they are the ideal complement to the CGI product portfolio, also distinguished by their innovative design and enduring quality.

CGI has a strong reputation for offering architectural grade impact windows and doors with unique features and high quality construction that exceed industry standards. CGI products have been specified and installed in some of the most prestigious residential and commercial projects in South Florida, including Fisher Island. Established in 1992, the Company was the first impact window and door manufacturer to offer PVB laminated glass designed exclusively to meet the Miami-Dade County impact resistant protocols. The company has recently moved into a new 110,000 square foot facility in the Miami area.
